Topic-by-Topic Breakdown

LU1 — Stakeholders and Organisation · Slide 15

Internal & External Stakeholders · Audience Types · Brand Design · Reputation Assessment

Key concepts:

- Internal stakeholders (management, employees) and external stakeholders (customers, partners, investors, media) each hold a different level of influence over — and interest in — the brand.
- External audiences segment into customers, partners, investors and media; each needs its own communication approach and message.
- Branding designs and ideas should foreground the product or service's attributes and the concrete benefits they deliver to the audience.
- Assessing an organisation's reputation on social media and other platforms — reviews, mentions, sentiment — is the starting point for every branding decision.

Activity 1 — Stakeholder Influence Mapping · Slide 23

Objective: Identify internal and external stakeholders influencing the brand.

Scenario: Your company is launching a new sustainability initiative. Map internal and external stakeholders, assess their influence levels, and design engagement strategies for each group.

Duration: 25 minutes.

Activity 2 — Audience Mapping Workshop · Slide 35

Objective: Recognise the types of external audience and their needs.

Scenario: Your company is launching a new sustainability product line. Map external audiences and develop targeted messaging strategies for each segment.

Duration: 25 minutes.

Activity 3 — Brand Attribute Mapping · Slide 48

Objective: Draft branding designs and ideas highlighting the product or service's attributes and benefits.

Scenario: Design a brand identity for a new fitness app targeting busy professionals, mapping both hard attributes (features) and soft attributes (lifestyle benefits) into a compelling visual concept.

Duration: 30 minutes.

Activity 4 — Digital Reputation Audit Exercise · Slide 60

Objective: Assess the organisation's reputation on social media and other platforms.

Scenario: Your organisation has received mixed customer feedback across social platforms. Conduct a reputation assessment to identify improvement opportunities and develop an action plan.

Duration: 45 minutes.

LU2 — Customer Influence · Slide 68

Customer Perceptions · Brand Reputation · Campaign Reception · Active Listening

Key concepts:

- Customers form perceptions of a brand, its products and its services from quality, experience and communication — a gap often exists between what a company believes and what customers actually feel.
- Customers actively shape brand reputation through word-of-mouth, reviews and advocacy — their voice can amplify or damage a brand faster than any paid campaign.
- Documenting customer reception and the outcome of branding campaigns turns anecdotal feedback into evidence for future campaign decisions.
- Active listening — full attention, a structured framework, and paraphrasing without judgement — reveals the customer's true perspective of the organisation.

Activity 5 — Brand Perception Audit · Slide 76

Objective: Assess customer perceptions of the brand, products and services.

Scenario: Your company recently received mixed customer reviews. Management believes service quality is excellent, but customer-satisfaction scores are declining. Conduct a perception audit to identify the gaps.

Duration: 25 minutes.

Activity 6 — Brand Advocacy Assessment · Slide 88

Objective: Recognise the importance of the customer in influencing brand reputation.

Scenario: Your company recently received mixed reviews online. As brand manager, analyse customer feedback and develop an advocacy strategy to improve brand reputation through existing satisfied customers.

Duration: 25 minutes.

Activity 7 — Campaign Documentation Audit · Slide 100

Objective: Document customer reception to the brand and the outcome of branding campaigns.

Scenario: Your company launched a new product branding campaign three months ago. Management needs a documentation report on customer reception and campaign outcomes to inform future marketing investment.

Duration: 25 minutes.

Activity 8 — Customer Perspective Analysis · Slide 112

Objective: Perform active listening from the customer to understand the customer's perspective of the organisation.

Scenario: You receive a complaint from a long-term customer expressing frustration about recent service changes. They say they feel 'unheard' and 'unimportant' to your organisation.

Duration: 25 minutes.

LU3 — Branding in Marketing · Slide 119

Branding Basics · Role in Marketing · Awareness Campaigns · PR Execution

Key concepts:

- Branding basics — visual identity, brand values, brand voice and brand guidelines — give a business a consistent, recognisable presence.
- Branding plays a central role in marketing: it builds trust, differentiates from competitors and creates the emotional connection that drives loyalty.
- Executing branding campaigns, events and activities — from social pushes to experiential pop-ups — raises brand awareness across the target audience.
- Public-relations campaigns must align to the brand positioning strategy, the operational plan and the marketing budget to stay credible and sustainable.

Activity 9 — Brand Audit Workshop · Slide 127

Objective: Explain the basics of branding.

Scenario: You are consulting for a local restaurant with inconsistent branding across their website, social media, and physical location. The owner wants to understand how to create unified brand guidelines.

Duration: 30 minutes.

Activity 10 — Brand-Marketing Audit Exercise · Slide 140

Duration: 25 minutes.

LU4 — Branding Effectiveness · Slide 172

Reputation Metrics · Success Indicators · PR Tactics · KPI Monitoring · Continuous Improvement

Key concepts:

- Reputation is measured through social metrics, digital metrics (traffic, mentions) and business KPIs (NPS, satisfaction) across every platform the organisation touches.
- Successful branding shows up in awareness, customer loyalty, financial impact and trust metrics — tracked consistently over time, not measured once.
- Public-relations tactics — media relations, community outreach, crisis management and digital engagement — extend the brand's message beyond paid channels.
- Monitoring the brand against SMART KPIs and acting on the gaps turns brand management into a continuous-improvement cycle rather than a one-off campaign.

Activity 13 — Platform Reputation Audit · Slide 180

Objective: Identify measures or indicators of the organisation's reputation on different platforms.

Scenario: Your organisation needs to establish reputation monitoring for a new product launch across social media, review sites, and business platforms.

Duration: 20 minutes.

Duration: 25 minutes.

Activity 16 — KPI Dashboard Design · Slide 217

Objective: Monitor the success of the brand against Key Performance Indicators (KPI).

Duration: 25 minutes.
